

# LET'S GET STRAIGHT TO THE POINT.

## SYMANTEC™ MULTI-TIER PROTECTION SMALL BUSINESS EDITION (SMP-SBE)

– *Ultimate Threat Protection for Small Businesses*

**Symantec Multi-tier Protection Small Business Edition is a simple, easy-to-use and cost-effective solution designed to safeguard business-critical digital assets through Symantec's trusted protection against malware, viruses, and spam. It provides unmatched defense for laptops, desktops, and servers, and it protects Microsoft® Exchange servers against email-borne threats and security risks.**

### ➔ PRODUCT DESCRIPTION

Symantec Multi-tier Protection Small Business Edition 11.0.2 is a product bundle and is not a single integrated product. The following Symantec products are tied together in a single package called Symantec Multi-tier Protection Small Business Edition 11.0.2:

- **Symantec™ Endpoint Protection**  
Advanced antivirus protection for Microsoft® operating systems
- **Symantec AntiVirus™ for Macintosh®**  
Antivirus protection for MacOS
- **Symantec AntiVirus™ for Linux®**  
Antivirus protection for Linux clients
- **Symantec™ Mail Security for Microsoft® Exchange servers**  
Antivirus and antispam protection for Microsoft® Exchange gateway
- **Symantec Brightmail based Premium AntiSpam**  
Premium antispam for Microsoft® Exchange and IBM® Domino® servers

Symantec Multi-tier Protection Small Business Edition provides an effective solution for small businesses with between 5–99 PCs by delivering threat protection solutions for Exchange email, as well as Windows®, Mac and Linux clients.

### ➔ PRODUCT CLAIM

For small businesses that need a single, integrated solution to protect against sophisticated attacks that evade traditional security measures, Symantec Multi-tier Protection Small Business Edition safeguards business digital assets and lowers risk by providing unmatched protection against threats for laptops, desktops, mobile devices and mail servers. Unlike many other competitive point products, it includes both endpoint and email protection to deliver superior protection against today's sophisticated threats.

SYMANTEC IS  
**ENDPOINT  
PROTECTION.**

➔ PRODUCT PROPOSITION

Features	Benefits	Customer Appeal
<b>Multi-layered Endpoint Protection</b>	Seamlessly integrates industry leading protection technologies (antivirus, antispyware, desktop firewall, IPS and device control) in a single agent.	Protects desktop, laptop and server from viruses, spyware, worms, malware and zero-day attacks.
<b>Antivirus for Mac &amp; Linux</b>	Symantec AntiVirus protection for Macintosh® and Linux®.	Protects heterogeneous environments.
<b>Antispam Technology</b>	Brightmail based antispam technology catches over 97 percent of spam, and less than one in a million false positives. Delivers automatic spam rule updates. Provides real-time analytics and reporting.	Reduces spam volume and keeps email secure.
<b>Mail Server Protection</b>	Symantec™ Mail Security helps provide highly effective mail protection against spam and viruses, and enforces company email security policies on MS Exchange servers.	Secures MS Exchange servers.

➔ ENDPOINT PRODUCT PORTFOLIO

The Symantec™ Endpoint Protection (SEP) portfolio consists of:

- *SEP*: combines Symantec AntiVirus™ with advanced threat prevention, delivering an unmatched defense against viruses, worms, spyware, internet fraud and identity theft for laptop, desktops and servers.
- *SEP Multi-tier*: combines Symantec AntiVirus with advanced threat prevention, delivering an unmatched defence against malicious attacks for laptops, desktops and servers, as well as email systems and mobile devices.
- *SEP Multi-tier Small Business Edition*: for small businesses that use Microsoft® Exchange email server, includes threat prevention for laptops, desktops and servers plus mail security for Microsoft® Exchange.
- *Symantec™ Network Access Control (SNAC)*: securely controls laptops, desktops, and servers access to corporate networks, enforces corporate security policy (for example, what antivirus software should be installed on corporate PCs?), whilst easily integrating with existing network infrastructures.

The Endpoint family also includes several products that add and extend functionality:

- *Symantec™ Critical System Protection*: protects against zero-day attacks, hardens systems and helps maintain compliance by enforcing security policies on laptops, desktops, and servers.
- *Symantec™ Endpoint Encryption*: provides advanced encryption for desktops laptops and removable storage devices.
- *Symantec™ Mobile Security*: combines award-winning antivirus, advanced firewall, antispam and data encryption technologies to secure Microsoft® Windows® Mobile and Symbian smartphones and PDAs.
